PROFILE SUMMARY

Computer Engineering graduate with a strong foundation in software development and a focused interest in cross-platform mobile applications. Hands-on experience gained through academic projects and internships, with proficiency in the Flutter framework and Dart. Supporting technical skills include Python and SQL for backend integration and data management. Eager to apply a detail-oriented and analytical mindset to contribute to a dynamic mobile development team.

EDUCATION

GSFC University, Vadodara   September 2021 – May 2025
Bachelor of Engineering, Computer Engineering
(CGPA : 7.25)

SKILLS

Familiar Tools: Git, GitHub, Firebase, Supabase
Languages & Technologies: C, C++, Java, Python, HTML, CSS, MySQL, MongoDB, Java, Flutter
Soft Skills: Communication, Team Collaboration, Learning Agility, Planning and Coordination
Other Competencies: Debugging, Requirement Gathering, UI/UX Development, API Integration

INTERNSHIP EXPERIENCE

Mobile Application Developer Intern, Akino Labs, Vadodara   August 2025 – Present
- Developed core modules of a Flutter-based mobile application, including authentication, profile management, document viewing (PDF & images), bookmarking, and advanced search.
- Integrated APIs to enable real-time data population with a 99% success rate and collaborated with backend teams to optimize performance.

Software Developer Intern, BlackID Solution, Vadodara   December 2023 – January 2024
- Developed a dashboard for **project tracking**, applying data validation and accuracy checks to ensure consistency in project statuses across teams.
- Optimized dashboard responsiveness and workflow efficiency, improving user experience.
- Contributed to **core feature enhancements**, including **data structuring and UI refinement,** while recommending **AI automation, IoT integration, and predictive analytics** for future scalability.

PROJECTS

Cross-Platform Mobile Application (Flutter, Dart, Supabase)
- Developed a gym management app integrating **secure authentication, GPS attendance, slot booking, profile management, BMI/BMR calculator, and video tutorials**, reducing time of **manual bookings**.

Job Search Application (Flutter, Dart, API)
- Developed a native Android job search app with applying, bookmarking, and profile features, integrating APIs to dynamically display data and improve **core functionality.**

Employee Data Management App (Flutter, Dart)
- Engineered a profile module with integrated PDF and image viewers for an employee data app, **streamlining access to 100+ records.**

CERTIFICATIONS

- NPTEL Google Cloud Computing Foundations
